

ACR39U-UF USB-C smartcard reader

The ACR39U-UF from ACS is a compact USB smartcard reader that supports all ISO 7816 microprocessor-based smartcards as well as numerous popular memory cards, including the US DoD Common Access Card (CAC). Housed in a stylish black casing, this highly durable desktop reader features the new ACR39 chipset as well as a USB Type C connector with reversible plug orientation. This reader supports various operating systems such as Windows, Linux and Mac and Android (versions 3.1 and above).

Fully compliant with PC/SC and CCID specifications, as well as EMV 2000 Level 1, the ACR39U-UF is ideal for various application areas including e-Banking and e-Payment and various mobile smartcard applications.
