

## ACS PocketKey FIDO Certified USB security key

Copyright Dot Origin Ltd

A FIDO2 push button security token from ACS is a compact and cost-effective hardware security device for individuals or enterprises. It will support multi-factor user authentication on services that support FIDO and FIDO2 logins.

Compatible with Windows, Mac, Linux and Android, this security key will work straight out of the box. It can be used with the major web browsers: Chrome, Safari, Firefox and Edge.

Online services that support FIDO U2F and/or FIDO2 as part of their two-step verification include Microsoft, Facebook, Google, Dropbox, GitHub, 1Password and Salesforce. For enterprise applications, FIDO2 is supported by several authentication server platforms as well as Azure AD.

This FIDO2 token authenticator supports any number of separate accounts that are registered to use the single key. You can add and remove security tokens through each individual service provider, with no account information stored by the device.

Simply press the button to confirm your sign-in request.

Supplied with a key ring loop attachment, the ACS PocketKey FIDO2 and U2F token uses elliptic curve cryptography to protect users from phishing and other security threats and breaches.

All account and key management functions are automatically performed according to FIDO Alliance and other web standards.

Manufacturer's part number: AFD01-A1

# **AFD01-A1 PocketKey FIDO Certified USB security key Technical Specifications**

## **Product:**

Credential type(s): USB security token authenticator

Form factor: Portable

Connector: USB (Standard 2.0 Type A connector)

OS support: Windows; Linux; Mac OS; Android

Browser support: Chrome; Safari; Microsoft Edge; Firefox

## **Host Interface:**

Host interface standards: USB HID Type-A

Host data transmission speed: 12 Mbps (USB 2.0 full speed)

## **Other Features:**

User presence validation: Mechanical switch

Status indicator: Blue LED

## **Certifications:**

MTBF: 600 000hrs

Regulatory approvals: CE, FCC, VCCI, UKCA, RoHS, REACH

System standards: FIDO U2F L1, FIDO2

Encryption: ECC p256

Country of origin: China

## **Physical:**

Dimensions: 29 x 14.5 x 10.5mm (1.14 x 0.57 x 0.41in)

Weight ( $\pm 10\%$ ): 4.48g (0.16oz)

## **Power:**

Supply: USB port

Operating current: 100mA (max)

## **Environment:**

Operating temperature: 0 to 65degC (32 to 149degF)

Operating humidity: Up to 95% RH (non-condensing)

**Manufacturer's part number:** AFD01-A1

**Country of origin:** China

**HSF code:** 84719000

**Manufacturer:** ACS
