## J3A040 CL

The J3A040 CL card from NXP is a contactless Java Card with 40K of EEPROM memory. The J3A series features significantly faster contactless communication and updated cryptography standards compared with previous cards in the JCOP family.

The J3A is an implementation of the Java Card 2.2.2 and Global Platform 2.1.1 specifications and is ISO 14443 compliant (without MIFARE) providing a convenient platform for delivering secure Java-based applets in a contactless-only card format.

Plain white card.

**Contactless programmable Java card with 40k on-board storage.**
