

NXP SAM AV2

The SAM AV2 from NXP is an ISO 7816 T=1 SAM card (Security Access Module) that has been designed for a broad range of readers supporting TDEA, AES and RSA capabilities.

Offering proven interoperability with the NXP portfolio of cards, including MIFARE Ultralight, MIFARE Ultralight C, MIFARE 1K & 4K, MIFARE Plus, MIFARE DESFire and SmartMX solutions, the NXP MIFARE SAM AV2 ensures a secure and versatile SAM solution in a variety of infrastructures.

Suitable for a wide range of application areas such as Access Management, Public Transport, Loyalty Systems and Micro Payment, the NXP SAM AV2 features advanced cryptography and high-speed communication functionalities.

The official NXP product code for the NXP SAM AV2 is P5DF081.

An ISO 7816 SAM card designed to work with the MIFARE/DESFire range of cards.
